CONSERVATION

Play an essential role in the preservation of the Amazon's remarkable biodiversity by choosing to stay with us. At the heart of our mission is a deep commitment to protecting the untouched beauty of the rainforest and ensuring the well-being of its extraordinary inhabitants.

Our sanctuary is strategically situated shortly after the entrance Junglekeepers reserve, offering you a rare chance to immerse yourself in one of the last truly pristine areas of the Amazon rainforest. During your stay, you'll have the unique opportunity to meet our dedicated ranger team, who, along with our local staff and guides, are deeply invested in the conservation and protection of this vital ecosystem.

Witness firsthand the critical conservation efforts that are essential to preserving the rich tapestry of life in this remote wilderness.

In addition to supporting environmental preservation, your stay also benefits local communities. Our team consists entirely of local residents, including our rangers, staff, and guides, ensuring that your visit contributes to the well-being of the communities that call the Amazon home. By staying with us, you help sustain these communities and their vital role in preserving this natural wonder for future generations.

JOURNEY

Your journey to our secluded Amazon Sanctuary begins with a personalized pickup in Puerto Maldonado, whether at the hotel of your choice or directly from the airport if you arrive with the first flight of the day. From there, you'll embark on an hour-long drive along the Transoceanic Highway, which soon transitions into a rustic dirt road flanked by the lush rainforest. As you venture deeper into the jungle for approximately an hour and a half, the path may turn into a muddy track during the rainy season, potentially extending your travel time and adding to the adventure.

The final leg of your journey is a tranquil boat ride along the river, lasting between 30 minutes to an hour, depending on the river's flow and weather conditions. As you glide through the waters, the Amazon's natural beauty will begin to unfold around you, offering a glimpse of the incredible biodiversity that awaits.

Due to the length of the commute, we ask that guests arrive in Puerto Maldonado in the morning to ensure a timely departure, traditionally around 9 am. Additionally, please plan your return journey with enough time, avoiding any arrangements to reach Puerto Maldonado before mid- afternoon on your way back, usually around 1 to 2 pm. This careful planning ensures a smooth and enjoyable transition both to and from your rainforest adventure.
